CLEANING

1. Always switch off and unplug your appliance and allow it to completely cool before cleaning.
2. Do not immerse the unit in any liquid.
3. Wipe the outside of the appliance with a clean, damp cloth.
4. Clean the appliance with hot soapy water and a non-abrasive sponge.
5. To maintain performance, descale the appliance monthly. To do this, add some detergent to hot water and operate the unit at least three times. Rinse thoroughly with clean water before using again.

TECHNICAL SPECIFICATIONS

Model	KA-KTL-01
Product Name	Glass Kettle with blue LED
Voltage	240 V
Rated Power	1800 W
Capacity	1.8 L

ENVIRONMENTAL INFO AND SUPPORT

Storage

1. Unplug the appliance and let it cool down.
2. Make sure all parts are clean and dry.

Thermostat Reset

There may be occasions when the built-in thermostat cuts power to the device due to abnormal operating conditions.

If you discover that the device is no longer boiling water on demand, try pressing the reset button located behind where the water tank sits.

Environment

Do not throw away the appliance with the normal household waste at the end of its life; hand it in at an official collection point for recycling. By doing this, you help to preserve the environment.

Support

If you need more information or if you have a problem, please contact Dihl at enquiries@dihl.co.uk. If you have purchased your item from another retailer, please contact them directly.
