

BSc Marketing

Sessions and modules in first years are eligible for a resit opportunity.

When registration opens for the resit, please note that registration for the resit takes place after the session has begun for the modules that run in first year. The resit must be taken in the session immediately following that in which the module was failed. The opportunity to resit is not available if the module is repeated in first year. For more information, see the Programme Regulations for full details. The specific assessment dates will be provided after registration. The resit and module fees (applicable when a module is repeated) can be found in the [fee schedule](#).
